# Who is this service for?

Sometimes all you need is some advice or support on where to go next, who to talk to, the best way to deliver a task or just a sounding board.

Our **Mentors** service is ideal for any established community or business group which needs more general, ongoing support to develop or maintain its tourism initiatives.

# How does it work?

You get several days of dedicated Hidden Britain support within a 12 month period. The time can be taken altogether or spread over the year. How you use it is up to you.

Each community will have a principle mentor but should you need it, we place our collective knowledge, skills and experience at your disposal. This means we can support a wide range of questions or tasks to help you deliver your tourism programme.

Here are just some examples of how the **Mentors** service could be used:

- Advice on responsible tourism policy
- Review of action plans & advice on budgeting
- Review of funding bids or presentations to funders
- Assistance with project implementation & reporting to funders
- Advice on the planning and coordination of your research projects
- Review and advice on marketing plans or campaigns
- Facilitation of workshops and meetings
- Training or strategy events for your group
